

JEWISH HISTORY RABBI'S SUBJECT

Theory That Bible Did Not Originate With the Jewish People is Denounced at Temple Beth-El Sermon.

In the first of a series of lectures on "Epochs of Jewish History," Rabbi Cronbach took for his subject Sunday morning, "Babel and Bible." It was a defense against the belief of some people that the Bible did not originate with the Hebrews, but with the people of other nations.

He said in part: "There are some scholars who claim that many ideas in the Bible did not originate with the Hebrews, but that the Hebrews took them over from other nations, chiefly the Babylonians, a people who lived east of the Hebrews about as far as Connecticut is east from Indiana. Some years ago a German professor named Delitzsch created a furore by lecturing along these lines. The discussion became so heated that the German emperor himself jumped in and took part. On the one hand were those who agreed with Delitzsch that many of the ideas of the Bible were of Babylonian origin. On the other hand there were those who denounced Delitzsch and his sympathizers as heretics, infidels, unbelievers, free-thinkers, blasphemers, apostates, and renegades.

Jews Felt Insulted.

"Into the discussion the Jews also mixed—that is the Reform Jews. Orthodox Jews paid no attention to it. The Jews felt insulted that Delitzsch was robbing Judaism of its ancient glories. Everything, nearly everything fine, noble and grand in the Bible, Delitzsch made out to be not Jewish but Babylonian. The doctrine that God is One—a doctrine claimed by the Jews as their distinct contribution to the world's thought—Delitzsch decided was not Jewish but Babylonian. The 'Laws of Moses,' so called, he made out to be Babylonian; the Sabbath, Babylonian; the conception of angels and immortality, Babylonian.

"Judaism is a grand religion no matter how it originated. The fact

BREAKS A COLD IN A FEW HOURS—PAPE'S

First Dose of Pape's Cold Compound Relieves All Grippe Misery.

Don't stay stuffed-up! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running; relieves sick headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness.

"Pape's Cold Compound is the quickest, surest relief known and costs only 25 cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.—Adv.

that bread originated in mud does not make it any the less valuable as bread. The fact that a statue originated from a shapeless piece of stone does not make it any the less admirable as a statue.

"Here and now is where we must have our religion, our Judaism, our God. Here and now, not ages ago.

"The great question is not what the Jews did in Babylonian time but what the Jews are doing today; not how our ancestors wrote, but how we live and think and act."

SYSTEM IS NEEDED IN ALL RELIEF WORK

Rev. Clyde M. Horst Speaks on Common Good—Church Should Aid Poor.

"The Common Good" was the subject of the sermon preached by Rev. M. Clyde Horst Sunday morning at the First Church of the Brethren on Miami st.

"The individual church or society," he said, "should not work independently in philanthropic enterprises. There should be intelligent co-operation of all concerned in relief work. Matters relating to church membership, of course, belong to the jurisdiction of the individual church, alone. But social problems must be dealt with by some phase of federated Christianity. All church people should co-operate in efforts for the 'common good.'"

"The time is at hand, however, for a more intelligent grappling with the problem of poverty, and the church should respond to the common sense as well as lend enthusiasm. Recently it was discovered that about six organizations were dealing with a poor family, and neither knew what the other was doing. Such haphazard and indiscriminate work does not fit this age. There must be some way to systematize relief work in a city of such complex society as exists in South Bend.

"To this end the Associated Charities should be fully endorsed and loyally co-operated with, by all churches and relief organizations. This association exists to organize charity. Direct relief is incidental to its work. It is worth all it costs to maintain, and more."

"CASCARETS" CLEANSE LIVER AND BOWELS

Feel Bulky! No Headache, Sour Stomach, Bad Breath, Constipation.

Get a 10-cent box now. Are you keeping your liver, stomach and bowels clean, pure and fresh with Cascarets—or merely forcing a passage every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system the constipating waste matter and poison in the bowels.

No odds how sick, headachy, bilious and constipated you feel, a Cascaret tonight will straighten you out by morning. They work while you sleep. A 10-cent box from your druggist will keep your head clear, stomach sweet and your liver and bowels regular for months. Don't forget the children—their little insides need a gentle cleansing, too.—Advertisement.

BAPTIST HERITAGE TOPIC OF SERMON

Rev. C. A. Decker Gives Points Wherein Church Differs From Others.

"Our Baptist Heritage" was the subject of Rev. Charles A. Decker's sermon at the First Baptist church Sunday morning. He gave five salient points wherein he said the Baptist church differed from the other beliefs. He said:

"The ordinances of the Baptist church are based upon the precepts and examples mentioned in the New Testament. We also stand for a regenerated church membership. By that I mean that no one is admitted into our church until they have had some religious experience; that is why we will not baptize an infant.

"The Baptist church always stood for the separation of church and state. While others through the ages have signified their willingness that the church should be dominated by the government, the Baptist creed has always been against it.

"Then we must have democracy in all ecclesiastical affairs. We are independent of the subject. 'Endowment for Service,' using as his text 'What is that in thine hand?' Exodus 4:2. In part he said:

"It is not so much the greatness of one's talent, as the greatness of the highest good under the guidance of God. It is necessary to know one's gifts, to esteem them justly, develop them fully, and use them continually. Not all the greatest are most widely known. Many of the supreme noble lives are passed in obscure service, and never receive wide recognition. Others supposed to have had mediocre mental powers have helped to turn the world upside down through the surrender of themselves to God's work and leading, among whom may be named Dwight L. Moody and William A. Sunday."

GUIDANCE OF GOD IS NEEDED BY ALL MEN

William A. Sunday One of Men Who Has Turned World Upside Down.

Services at the First Reformed church Sunday morning were in charge of the Rev. Merritt C. Beale, who spoke on the subject "Endowment for Service," using as his text "What is that in thine hand?" Exodus 4:2. In part he said:

"It is not so much the greatness of one's talent, as the greatness of the highest good under the guidance of God. It is necessary to know one's gifts, to esteem them justly, develop them fully, and use them continually. Not all the greatest are most widely known. LIFE IS COMPARED TO BASEBALL GAME

"Breaking In" Has Much to Do With Final Outcome, Says Rev.

A. E. Thomas.

In the first of a series of seven sermons in which he will liken the average life of a young man or woman to a game of baseball, Rev. A. E. Thomas, at the First Brethren church Sunday night compared the start in life of a young person to the start of a ball game. He said:

"A man's or woman's every day life will show whether they will walk the streets of gold. Life presents many problems and is one big game. In a man's life he has many of these problems to solve. His life is not counted in years but in quality. There are three mistakes that go to cause disappointment in a young person's life.

"The first is from being warned to stay away from the theaters, to quit cigarettes and card playing. The second mistake is the ruthless extravagance that is now going on in the world. The young man or woman starting in life ought to save.

The third mistake in starting life is to be too independent. What is the chief end of life? It is to serve God and fellowman, and to do our whole duty in the love and service of God."

The pastor's topic next Sunday night will be "At the Bat."

CHRIST PRESENTED THREE GREAT TRUTHS

Rev. James L. Gardiner Speaks on "Fellowship With the Divine."

Rev. James L. Gardiner in his sermon, "Fellowship With the Divine," at St. Paul's M. E. Memorial church, Sunday morning, said that there were three great truths which Christ presented in His life and in His words. These were the fact of the fatherhood of God, the great divine dignity of man, and that man may have fellowship with God and with His son, Jesus Christ.

At one point he said: "If we have fellowship with God we will be co-workers with Him. We will follow the Christ in the great work of winning the world to God. We will find too that the only real and true satisfaction is to be found in this divine companionship."

In the evening the pastor spoke on "Our Debt to the Faith of Our Fa-

WILL INSTALL PUMPS AT LEEPER PARK PLANT

Are Capable of Lifting Five Millions of Water Every Twenty-Four Hours.

Work on the installation of the two new pumps for the north pumping station will be begun about the middle of the present week, according to Supt. J. W. Toyne. The two pumps have arrived and are now on cars in the Vandalla yards. The pumps are of a huge type having a lifting capacity of 5,000,000 gallons every 24 hours. An idea of the massiveness of these water drawers may be gained by considering the fact that the fly wheel requires one flat car for transportation. It is 14 feet in diameter.

Mr. Toyne stated that it will require between six weeks and two months for the installation of the two monsters.

Beware of ointments offered as "just as good as Resinol"

If you have any skin trouble, you want Resinol. You want it because you have known about it for years, because your friends and neighbors have used it successfully, and because you know that physicians have prescribed it for nineteen years in the treatment of eczema, rashes, ringworm, pimples and other distressing eruptions.

You do not want a "substitute" or something that a dealer tells you is "just as good as Resinol." You do not want it because you know nothing of its value. It has nobody's endorsement and for all you can tell it never did anyone any good at all. If a dealer tries to force a "substitute" on you, it is for a very good reason of his own—read about it in the next column.

Most druggists sell Resinol gladly. Small jar 50c, large jar \$1; Resinol Soap 25c per cake. For trial size free, write to Dept. 48-S, Resinol, Baltimore, Md.

This is why they do it

When a clerk tries to make you take a "substitute" for Resinol, or any other standard article, don't blame him, blame his employer. The clerk probably would rather sell you the genuine Resinol, because he knows even better than you that doctors prescribe it and that it does heal skin troubles. Also, it is easier to give you what you want than to argue you into buying something you DON'T want.

But because some cheaply-made imitation pays a few cents more profit, an unscrupulous dealer here and there gives his clerks a commission if they can force you to buy it instead of real Resinol. Heavens! look too fast that the imitation may be 50c more harm than good; or perhaps he just doesn't care, as long as he gets your money. How do you feel about it? Almost every town has its "substituter," look out for him.
